### Funeral Service

Joe's love of his family and the outdoors was an inspiration to us all to live our life to the fullest. Joe's commitment to his work and attention to detail made him a trusted mentor for those who worked with him in all of the companies he was with (Atlantic Packaging, LOEB, North West Company.) Joe lived by his motto, "take one day at a time", which has been inherited by many of his family and friends.

Celebrating their 40th Anniversary, Joe and Dianne spent an amazing summer together at their Manitoulin Island vacation property as well as travelling the Rideau Canal, visiting with family and friends throughout.

A celebration of Joe's life will be hosted by the family in the summer of 2017. Donations to the Vale Hospice would be appreciated.
